Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

The drawings were received on 1 April 2004. These drawings are acceptable.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-21 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5,014,622 to Jullian.

Claims 1-20 are rejected as stated in the previous Office Action. The new limitations of the claims are met by the system of Jullian, for instance, when no slave devices have been previously identified, which is the case at the first QUERY ADDRESS command routine. The entering of the addresses of the blasting caps by the blaster prior to the command routine comprises pre-loaded identification information as claimed.

Claim 21 is anticipated by Jullian as per the discussion of claim 1 in the previous Office Action as well as col. 11, lines 43-62 of Jullian discussing the issuances of clock pulses.

Response to Arguments

Applicant's arguments filed 1 April 2004 have been fully considered but they are not persuasive. The response to Applicant's arguments, that the system of Jullian

receives an identifying response from every slave device whereas the system of the instant application only receives responses from unidentified slave devices, has been discussed above. Summarily, the device of Jullian clearly anticipates the claimed invention whenever the command is executed and no slave devices have yet been identified since, in that case, all slave devices are unidentified and thus, the only responses are necessarily from devices that have not been loaded in the master device.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
